On the contrary, the Northern Pacific, Chicago, Milwaukee and St. Paul, Amalgamated Copper, American Smelting and Refining common, Baltimore and Ohio, and Missouri Pacific stocks all made good gains, while some continuous and persistent buying of the United States Steel. 23,230 Pacific Mail. 1,000 Pac. Chicago, July 2.—The early selling movement in wheat appeared to be on the favorable weather conditions throughout the West and Northwest, rather indifferent cables, and some speculative selling offerings were quickly exhausted and prices readily worked upward. The market appeared to be very sensitive and easily influenced by the reports.

Corn was active and weak, with prices showing sharp decline early on favorable weather conditions and the government crop report, but later urmed firm. Reports, while favorable on the new crop and influenced new crop positions, had only sentimental effect on near positions owing to small receipts and small stocks.

Oats were active and weak early on the favorable government report and favorable weather. There was heavy selling (f new crop oats.

Provisions were fairly active during the day and
